SUMMARY

Results-driven BCA student with hands-on experience in full-stack web development and machine learning. Proficient in Python, Flask, Django, and MySQL, with practical experience in building RESTful applications and data-driven solutions using Pandas and Scikit-learn. Strong in problem-solving, backend development, and structured workflow management.

SKILLS SUMMARY

- **Languages:** Python, Java, C, C++, MySQL, HTML, CSS,
- **Frameworks & Libraries:** Flask, Django, FastAPI, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
- **Tools & Platforms:** Git, GitHub, Canva, Excel, AWS, Cloudflare, Google tools (Docs, Sheets, Slides, Forms)
- **Development Environments:** VS Code, Jupyter Notebook, Notepad
- **Soft Skills:** Problem-Solving, Team Collaboration, Attention to Detail, Project Management, Communication, Adaptability

EXPERIENCE

DSCIT Club, SHUATS – Core Team Member

2024 – Present

- Coordinated **multiple technical events and workshops** for the student community.
- Managed **end-to-end registration workflow**, improving participant data handling efficiency.

EDUCATION

Bachelor of Computer Application;

(2023 - Present)

Sam Higginbottom University of Agriculture, Technology & Sciences (SHUATS)

Prayagraj, India

Higher Secondary School

(2021 - 2023)

Arya Kanya Inter College

Percentage: 60.8

Secondary School

(2019 - 2021)

Arya Kanya Inter College

Percentage: 60.5

PROJECTS

Crop Yield Prediction Using Machine Learning

- This project was developed with batchmates for predicting crop yield based on rainfall, soil type, pesticides/ fertilizers and crop.
- Implemented machine learning models using **Scikit-learn** for crop yield prediction.
- Performed data preprocessing and feature selection using **Pandas and NumPy**.

Classroom Allotment System

- Developed a classroom allotment system for **automated scheduling optimization**
- Implemented logic for **dynamic timetable generation based on constraints**

ADDITIONAL INFORMATION

Language : English, Hindi
